

3M 995 Movie Light Super 8

Serial Nr.: -

Characteristics and functions

Illuminator for photo-cinematography, continuous light with 1000w lamp (33000 Lumen). Color temperature 3400 ° K.

The main switch, located in the rear part, allows the lighting of the bulb at full or half power.

The angular bracket under the illuminator allows it to be fitted above the movie-camera, while with a special bracket accessory the illuminator can be positioned next to the device using the thread located under the grip of the movie-camera.

Weight 440g, lamp not included.

Dimensions: Height 105mm, bracket not included. Width 95mm. Depth 128mm.
