

# APS – KODAK ADVANTIX 100 25exp.

## Information

The Advanced Photo System, also called APS, is an analogue photography system based on a hybrid technology film format (chemical image and magnetic information) launched in 1996.

It was marketed by Eastman Kodak under the name Advantix, by Fujifilm as Nexia, by AgfaPhoto GmbH as Futura and by Konica as Centuria.

Kodak ceased production of its Advantix film in 2004.

ISO 100/21 ° sensitivity. Deadline: November 2004. Production lot: 53 2172. Kodak product code: 150 5403.

The film is 24 mm wide and can have three image formats:

- H for "High definition" (11.89x6.5in.; aspect ratio 16: 9; print 4x7in.
- C for "Classic" (9.88x6.57in.; aspect ratio 3: 2; print 4x6in.
- P for "Panoramic" (11.89x3.74in.; aspect ratio 3: 1; print 4x11in.
