

POSSO 'CLASSIC' Slide Viewer

Serial Nr.: -

Characteristics and functions

With this device you can view slides 24x36mm in strip or mounted in 1.97x1.97in. frames.

The insertion of the frame allows the automatic lighting of the bulb, while when using films in strip it is necessary to use the red button located at the front.

The viewer works with 2 batteries 1.5v type R14 or power adapter (3v DC) whose outlet is situated on the left side of the unit.

By removing the internal body containing the batteries and the bulb, images can be viewed using the external light source such as, for example, the sun

Weight 11.11oz. (Batteries excluded).

Height 5.91in. Width 3.15in. Depth 3.94in.
