

MINOLTA CASE for Minolta 16 MG-S Flash

Serial Nr. no
Minolta Code: unknown

Characteristics and functions

This case made of heat-sealed plastic with automatic closure, has a semi-transparent PVC pocket that can contain the Minolta 16 Flash-Gun or the Minolta 16 Flash-Cube dedicated to the Minolta 16 MG-S, micro camera presented in 1971. The front flap is reinforced by a chromed metal support that incorporates the automatic for closing. Also on the front side appears the writing "minolta" silk-screened in white. On the back side we find a loop also stopped with two snaps, which is used to insert the belt of the trousers for a comfortable carrying around the waist.

Weight 13g. Length 65mm. Width 48mm. and thickness 33mm.
