

MINOLTA CLOSE-UP ATTACHMENT SET #1, #2 for Minolta 16P

Serial Nr. no
Minolta Code 6203-582

Characteristics and Functions

These additional lenses are the same ones produced since 1957 as optional accessories of the Minolta 16. In this version, dedicated to the Minolta 16P of 1960, and also to the subsequent Minolta 16PS presented in 1964, these lenses are "bodied" with a gray plastic frame and black that ends with a four-flange bayonet for adaptation in front of the lens of 16P and 16PS cameras. The set includes lens # 1 for shooting up to one meter and lens # 2 for shooting up to 60cm.

Weight 2g. Length 20mm .. Width 20mm. Thickness 6mm.
