

MINOLTA BODY CAP BC-1000

Matricola s.n.
Minolta Code: unknown

Characteristics and Functions

This hard plastic cap, for Minolta Autofocus SLR cameras, is applied to the bayonet by rotating it in the same direction as the locking movement of the lens bayonet on the camera's mouthpiece. The insertion point on the SLR bayonet is indicated by the raised dash on the edge of the cap itself, placed to the left of the word "MINOLTA" which is found, in relief, in the center of the depressed part. The edge has a large relief and is striped.
Weight 9g. Diameter: 61mm. Height 12mm.
