

MINOLTA BODY CAP

for Vectis S-1

Serial Nr. no
Minolta Code: unknown

Characteristics and Functions

This cap - BC-V1 - in translucent flexible plastic, for Minolta Vectis S-1 and S-100 cameras, is provided with three identical flanges for application on the lens union and also with three references placed in relief around the circular crown grooved. It does not matter which of the three references you choose, as they all allow the correct insertion of the cap on the optics union, but only one will ensure that the cap, positioned at the end of the stroke on the insertion flanges, has the wording MINOLTA perfectly aligned with the 'horizon! Made in Malaysia. Weight 9g. Diameter: 60mm. Thickness 12mm.
