

MINOLTA CARRYING CASE for Mini 44 Projector

Serial Nr. no
Minolta Code: unknown

Characteristics and Functions

This case is made of light gray vinyl with a zipper closure that covers over three sides of the bag; it is of a soft consistency except in the central part of the bottom (the one that is not affected by the zipper) and on the sides where the shoulder strap is attached. The shoulder strap, also in gray vinyl, is joined to the bag by means of chrome rings held by two loops sewn to the structure of the case and is adjustable in length. The words "Mini 44" and "MINOLTA" are hot engraved on the front; while on the opposite side we find engraved: "MADE IN JAPAN". A rigid structure is riveted inside which, in addition to reinforcement, serves to keep the accessories separate from the projector itself, a gray PVC band with snaps retains the projector and accessories. There is also a gray vinyl pocket inside the lid.

Weight 285g. Length 200mm. Width 100mm. Height 133mm.
