

# MINOLTA CASE for HI-MATIC (1962)

Serial Nr. no  
Minolta Code: unknown

## Characteristics and Functions

This case, made of hard brown leather, is the typical ready-to-bag made up of two separable parts. The camera is attached to the bag by means of the large chrome screw located under the bottom of the case. The separation and removal of the upper shell is allowed by the presence of two snaps and an asymmetrical ring located one above the other, on the back of the bag. At the center of the front protuberance there is a chromed disc in which a leather disc is inserted which bears "minolta" hot engraved. The bag has a thin brown leather shoulder strap, adjustable and hooked to two chromed metal loops placed on the sides of the lower part. On the back, on the left, the words "Made in Japan" are engraved.

Weight 217g., Shoulder strap included Height 105mm. Width 160mm. Depth 87mm.
