

MINOLTA CASE for Pocket Autopak

Serial Nr. no
Minolta Code: unknown

Characteristics and Functions

This case, made of black imitation leather with automatic closure, is dedicated to Pocket Autopak and Pocket Pak cameras with built-in electronic flash produced between 1976 and 1981 (Weathermatic-A excluded) such as the "E", "T" series, "Ex" and "Tx". The word "minolta" is hot-engraved on the upper side. The wording minolta is located in correspondence with an area of the bag that has a reinforcement that gives it a particular rigidity in that point: it serves to protect the shutter button from accidental pressures. On the lower part is hot-engraved: "JAPAN". The other end of the bag is open for a more comfortable insertion of the camera; there are only two small opposite tabs, with automatic which serve to prevent accidental spills. The inside of the bag is in velvet. Weight 28g. Length 170mm. Width 73mm. Thickness 27mm.
