

# MINOLTA CREATIVE EXPANSION CARDS (AUTOMATIC DEPTH CONTROL CARD)

Serial Nr. no  
Minolta Code 6927-200

## Characteristics and Functions

The Minolta Automatic Depth Control Card was introduced in 1988 and can be used with the Dynax 8000i / 7000i and Dynax 5000i cameras. This card automatically intervenes to adjust the focus and aperture of the lens diaphragm in order to obtain the greatest depth of field available. By depth of field we mean the space that appears sharp placed before and behind the plane of focus where the main subject of the frame appears.  
Weight about 2 grams. Length 30mm.; width 20mm.; thickness 2mm.
