

MINOLTA CREATIVE EXPANSION CARDS (PORTRAIT CARD)

Serial Nr. no
Minolta Code: 6926-200

Characteristics and Functions

The Minolta Portrait Card was introduced in 1988. In combination with the Dynax 8000i / 7000i and Dynax 5000i cameras it allows you to use a special exposure program that achieves an automatic focus adjustment which, in combination with a wider aperture, This allows you to obtain a detailed subject in focus on a soft and blurred background. The most evident results are obtained with long focal lengths; in portraits, the most suitable telephoto lenses have a focal length between 75 and 100mm.
Weight about 2 grams. Length 30mm.; width 20mm.; thickness 2mm.
