

MINOLTA O 56 AC FILTER

d.55mm.

Serial Nr.
Minolta Code: 7255-312

Characteristics and Functions

The filters of the AC series - Achromatic Coating - are filters that have an anti-reflective surface treatment like the lenses, for a better performance. The Minolta O 56 AC Filter is shown in black and white photography: it allows you to darken the sky and highlight the clouds, increasing their effects compared to yellow filters. It also allows you to eliminate, even if not totally, the haze. Black frame with "minolta" logo in italics. Weight 18g. Frame outer diameter 57mm.; thickness 6mm.
