

# MINOLTA O 56 FILTER

## for Minolta RF 500mm. f.1:8

Serial Nr. no  
Minolta Code unknown

### Characteristics and Functions

This "O 56" filter is one of the four supplied with the 500mm reflex lens. Minolta's Manualfocus series; it must be applied on the back using the supplied key. The Minolta O 56 Filter is shown in black and white photography: it allows you to darken the sky and highlight the clouds, increasing their effects compared to yellow filters. It also allows you to eliminate, even if not totally, the haze. Black frame with "MINOLTA" logo in block letters. Weight 8g. External diameter of the frame 39mm.; thickness 9mm.
