

MINOLTA Y 52 FILTER

for Minolta RF 500mm. f.1:8

Serial Nr. no
Minolta Code unknown

Characteristics and Functions

This "Y 52" filter is one of the four supplied with the 500mm reflex lens. Minolta's Manuafocus series; it must be applied on the back using the supplied key. The Minolta Y 52 Filter is shown in the black and white photograph: it allows you to darken the sky and highlight the clouds. It also allows you to darken and make the shadow areas less blue in photographs with snowy landscapes. Black frame with "MINOLTA" logo in block letters. Weight 8g. External diameter of the frame 39mm.; thickness 9mm.
