MINOLTA
GELATIN-FILTER HOLDER
1981

Characteristics and Functions

The Minolta 3 Inch Gelatin-Filter Holder can be used with 3 inch (7.5cm.) Gelatin filters. The chrome lever located in the upper part allows you to lock the filter in its seat.

By means of the screw with a large ribbed head, the threaded connection ring can be replaced to screw the filter holder to various objectives. The rings are available with 49mm., 55mm threaded connection. and 72mm. Of course, by loosening the screw only slightly, you can rotate the filter holder without detaching it from the connecting ring.

Weight of the filter holder only without connecting ring: 49g.

Dimensions: width 95mm .; height 86mm .; thickness 12.5mm.
