

MINOLTA HOLSTER CASE For VECTIS GX SERIES

Serial Nr. no
Minolta Code: 6280-670

Characteristics and Functions

The Minolta Holster Case was unveiled at the same time as the Vectis series GX cameras, which use the new APS film. This hard plastic case allows you to carry one of the three Vectis GX-1, GX-2 or GX-3 cameras on your waist. The practical front opening with a notched slider allows you to open the two half shells which, spreading about 1cm. (they are hinged at the bottom), they allow a quick extraction of the camera. Due to the volume of the waterproofed body, it is not possible to use the Minolta Holster Case with the Vectis GX-4 device.

Weight 86g. Dimensions: width 100mm .; height 129mm .; thickness 76mm.
