

# MINOLTA LENS CAP LF-141

Serial Nr.: no  
Minolta Code unknown

## Characteristics and functions

This black plastic cap can be used with Vectis series lenses with 40.5 filter mount. Vectis is the name that distinguishes Minolta's production, in the APS system. It is applied to 'clip-on' on the lens mount by pressing the two movable tabs on either side of the "MINOLTA" inscription engraved in the center of the cap. Made in Malaysia. Weight 5g. Dimensions: diameter 41mm .; thickness 7mm.
