

MINOLTA MACRO STAND AB III

Serial Nr. no
Minolta Code: 8343-100

Characteristics and Functions

The Minolta Macro Stand AB III was presented in 1979; this model marked with the new logo has been produced since 1981. It can be folded to optimize space during transport. It should be applied to Autobellows III or Autobellows IV for shooting small objects that are held in place by the two metal jaws on the 78mm swivel table, with a surface finish with a standard reflection factor of 18%. The Macro Stand AB III can conveniently be used with optics, mounted on the bellows, with focal lengths between 28 and 85mm used in normal or inverted position, or with optics with focal lengths between 20 and 24mm, only in inverted position. It offers a magnification factor of 0.8x to 3.3x.

Weight 525g. Length 198mm.; width 98mm.; maximum height in open (operational) position, feet included, 193mm.
