

MINOLTA MAGNIFIER Vn

(New Logo)

Serial Nr. no
Minolta Code: 8213-207

Characteristics and Functions

The Minolta Magnifier Vn was presented in 1979; is a magnifying viewfinder that allows accurate focusing on the central part of the frosted glass slide and is applicable to all Manualfocus SLRs with rectangular eyepiece frame. The eyepiece allows dioptic correction from -7.50 to +3.1 diopters. It has to be slipped onto the black plastic frame of the eyepiece. If flipped upwards, it allows you to observe the scene shot in its actual composition, while lowered it shows only the central part of the image, which is greatly enlarged. Since 1981 it has been distributed under the new Minolta brand with the rising sun in the "O". Weight 14g. Dimensions: width 11 mm; length 31mm.; height 38mm.
