

MINOLTA

PROFESSIONAL BAG PB-12

Serial Nr. no
Minolta Code 6925-120

Characteristics and Functions

The Minolta Professional Bag PB-12, made of waterproof blue fabric, is equipped with an adjustable shoulder strap with an integrated anti-slip band. By acting on the buttons of the two closures you can open the upper part under which we find direct accessibility to the two front pockets with bellows, which have no cover of their own and to the two flaps sewn along the sides, stopped in the center by means of velcro, which in turn cover the central compartment of the Minolta PB-12. The interior is in burgundy color, in the center there is a soft structure fixed with Velcro on the back side only that allows it to contain two lenses and a flash; leaving on the sides the possibility of arranging two camera bodies. On the front, a black plastic label with silver screen printing is sewn in the center: "MINOLTA" with the rising sun in the "O". On the sides, under the shoulder strap, two external pockets with two-centimeter bellows are sewn closed by a flap with velcro. 4 black plastic support feet are applied to the base

Weight 660g., shoulder strap included. Length 385mm. Width 170mm. Height 230mm.
