

# MINOLTA

## REAR LENS CAP LR-1000

### for Minolta AF Lenses

Serial Nr.: no  
Minolta Code unknown

#### Characteristics and functions

This rigid plastic rear cap, for Minolta AF lenses, is applied to the bayonet by rotating it in the direction of the "CLOSE" arrow. The insertion point on the lens bayonet is indicated by the arrow embossed on the edge of the cap itself. The edge is shaped with a circular groove for about 2 millimeters while the remaining part is smooth. At the center of the caseback is the inscription "MINOLTA" in relief, with the rising sun in the "O". Weight 13g. Diameter: 68mm. Height 12mm.
