

MINOLTA REMOTE CORD S

Serial Nr. no
Minolta Code: 8035-100

Characteristics and Functions

The Minolta Remote Cord is available in two versions: the "S" type is 50cm. long, type "L" is 5m long. The Remote Cord was introduced in 1978. Since 1981 it has been marketed with the new logo with the rising sun in the "O". It can be used with XD, XG and CLE cameras. On the XD series reflex cameras the fixing socket is coaxial to the shutter button; on the XG it is located to the left of the lens port, while on the CLE cameras it is on the left side.

By setting exposure B on XD bodies, the shutter speed will be automatically switched 1/100 of a second when using the Minolta Remote Cord. Weight 23g.
