

MINOLTA REVERSE RING II

d.55mm.

Serial Nr. no
Minolta Code: 8326-200

Characteristics and Functions

The Minolta Reverse Ring II was presented in 1976, since 1981 it has been marketed with the new logo with the rising sun in the "O", but only the graphics and color of the box vary. The Minolta writing is already engraved in block letters since 1976, when the packaging was in black cardboard.

With this accessory it is possible to mount the objectives, with 55 mm filter attachment, in an inverted position, thus obtaining a higher magnification ratio. For example the 50mm. in the normal position it produces magnifications from 0.5x to 1x while in the inverted position, the same objective produces magnifications from 1x to 2x.

Weight 52g. Dimensions: diameter 59mm.; thickness 12mm.
