

# MINOLTA TRIPLE CONNECTOR TC-1000

Serial Nr. no  
Minolta Code 8821-120

## Characteristics and Functions

The Minolta Triple Connector TC-1000 was introduced in 1985 at the same time as the Minolta Autofocus system (5000 AF, 7000 AF, 9000 AF). It allows you to connect up to three electronic flashes of the Program Flashes series such as 3600HS (D) / 3500xi / 2000xi / 3200i / 2000i in addition of course to the previous 2800 AF and 4000 AF. The connection of an OS-1100 cable and / or an EX extension cable for connection to the camera must be inserted into the rear socket, the EX cables must be inserted into the other three sockets. Join the parts respecting the guide of the connections and tighten the chromed ring completely. You can refer to the connection diagrams found on the Triple Connector (X) board.

Weight 25g. Dimensions: width 61.5mm .; length 61mm .; thickness 19mm.
