

# MINOLTA STRAP

## for VECTIS S-1

Serial Nr. no  
Minolta Code: unknown

### Characteristics and Functions

Medium-width shoulder strap dedicated to Vectis series reflex cameras such as the S-1 camera body or the subsequent S-100. This shoulder strap, in black cordura with gray borders, is finished with black rubber parts: one in the center with the "VECTIS" gold screen printing and two at the end in black cordura at the point where the shoulder strap attaches to the camera loop. On the outside there are two golden MINOLTA writings with the rising sun in the "O", while the words "China" are hot-engraved on the other. Opposed to the central rubber part there is an anti-slip part in black eco-leather. Two loops and two black plastic buckles which are used to adjust the length of the shoulder strap complete the equipment of the shoulder strap.

Weight 26g. Dimensions: length excluding adjustable parts for coupling 63cm.; total length 130cm.; maximum width 2,5cm.
