

MINOLTA VIEW-FINDER CAP (IV type – variant 2)

Serial Nr. no
Minolta Code: unknown

Characteristics and Functions

This plastic cap can be used with the Dynax and Maxxum series Autofocus SLR cameras. The View-Finder Cap is applied as a shoe on the black plastic frame of the viewfinder eyepiece. Along the side opposite to that of the attachment to the viewfinder frame there is a loop for inserting the camera strap. Precisely on this side you can see the variant in the mold of the horizontal ribs.

Weight 3g. Dimensions: length 46mm. width 26mm .; thickness 12mm.
