

MINOLTA VIEW-FINDER CAP (New Logo – I tipo)

Serial Nr. no
Minolta Code: unknown

Characteristics and Functions

This plastic cap can be used with XD, XG and X series SLR cameras produced after 1981 with the renewed Minolta Logo. Some of these SLR bodies, such as the XD-7 / XD-11, have already incorporated the viewfinder shutter, therefore they do not require the use of this View-Finder Cap which is applied as a shoe on the black plastic frame of the viewfinder eyepiece. A through hole with a rectangular section located under the central ridge allows the cap to be placed on the shoulder strap for transport. Weight 2g. Dimensions: length 27mm. width 17,5mm.; thickness 9mm.
