

135mm. f.1:2.8 MC Tele Rokkor - PF

Production: 1967-1972

Matricola n.1505166
Minolta Code: 0666

Inscription on the lens:

Minolta Lens Made in Japan MC Tele Rokkor - PF 1:2.8 f=135mm

This lens derives from the 135mm. f.1: 2.8 Auto Rokkor. Aesthetically it looks very different from the previous Auto Rokkor in that the aperture ring has been set back and placed close to the camera, as for all the lenses of the new MC Rokkor series. The optical system, on the other hand, is very similar to the previous one. The aesthetic appearance is typical of the MC Rokkor series. The identification code 135mm, in orange color, is placed on both sides of the distance scales.

Numero lenti Number of lenses	6
Gruppi Groups	5
Angolo di ripresa Field angle	18°
Distanza minima di ripresa Minimum focus distance	1,5 m. / 5 ft.
Accoppiamento diaframma Diaphragm coupling	Automatico automatic
Gamma diaframmi Aperture range	2,8 - 22
Dimensioni - diametro x lunghezza in mm. Dimensions: diameter x length (mm.).	67 x 93
Peso - in grammi Weight - in grams	490
Misura attacco filtri - in mm. Filter attachment size (mm.)	55
