The 135mm. f.1: 3.5 Minolta MD is the updated version of the 135mm f.1: 3.5 MD Rokkor, it maintains the same design of the optical complex with 5 lenses in 5 groups

On the outside, in addition to the new inscription on the front of the lens, you can see the introduction of all those typical improvements of the Minolta MD series: the numbering of the standing scale now painted in yellow-orange; the lock on the minimum diaphragm, with the signal painted in green, which is obtained by moving back a small cursor placed along the right side of the diaphragm ring. The last working diaphragm painted in green. The front lens cap has the new Minolta brand graphics with the rising sun in the "O". The identification of the objective is given by a single yellow-orange inscription 135 placed to the left of the distance scales. Like all the others in the MD series, this lens also has the MC coupling.
