

# 28-70mm. f.1:3.5-4.8 Minolta MD Zoom

Production: 1990-2005

Serial Nr.54022424  
Minolta Code 2526-100

Inscription on the lens:  
**Minolta MD Zoom 28-70mm 1:3.5-4.8 Japan Ø55mm**

The 28-70mm. f.3.5-4.8 Minolta MD Zoom (Macro) is an economic lens built in collaboration with Cosina, presented in March 1990. It has the capability of macro shooting with a 1: 4 ratio, the graphics concerning the "macro" settings are painted in blue and indicates two reproduction ratios 1: 4 and 1: 6. To keep the costs of the product low, the slider for the lock on the minimum aperture (which remains painted in green) and also the release button of the focal ring to switch from the normal position to the MACRO function have been abolished on this lens.

On the outside, in addition to the inscription on the front of the lens, you can see the introduction of those improvements typical of the Minolta MD series: the numbering of the standing scale now painted in yellow-orange. The focal lengths **70**, **50**, **35**, **28**.are indicated on the zoom ring. The number 70 is painted in yellow, the numbers 50 and 35 in white, the number 28 in orange. Two small lines are shown on the barrel, one yellow and the other orange. The front lens cap has the new Minolta brand graphics with the rising sun in the "O". The identification of the objective is given only by the inscription located frontally around the first lens. Like all the others in the MD series, this lens also has the MC coupling.

Numero lenti Number of lenses	<b>8</b>
Gruppi Groups	<b>8</b>
