

28mm. f.1:2.8 Minolta MD

Production: 1981-2005

Serial Nr.9004195
Minolta Code: 0590

Inscription on the lens:
Minolta MD 28mm 1:2.8 Japan Ø49

This 28mm. f.2.8 Minolta MD is the latest update of the 28mm f.2.8 MD Rokkor in the set up with an optical complex of 7 lenses in 7 groups.

On the outside, in addition to the new inscription on the front of the lens, you can see the introduction of all those typical improvements of the Minolta MD series: the numbering of the standing scale now painted in yellow-orange; the lock on the minimum diaphragm, with the signal painted in green, which is obtained by moving back a small cursor placed along the right side of the diaphragm ring. The last working diaphragm painted in green. A small groove to hold the new clip-on plastic lens hood. The front lens cap has the new Minolta brand graphics with the rising sun in the "O". The identification of the objective is given by a single yellow-orange inscription 28 placed to the left of the distance scales.

Like all the others in the MD series, this lens also has the MC coupling.

Numero lenti Number of lenses	7
Gruppi Groups	7
Angolo di ripresa Field angle	75°
Distanza minima di ripresa Minimum focus distance	0,3 m. / 1 ft.
Accoppiamento diaframma Diaphragm coupling	automatico automatic
Gamma diaframmi Aperture range	2.8 - 22
Dimensioni - diametro x lunghezza in mm. Dimensions: diameter x length (mm.).	64 x 43
Peso - in grammi Weight - in grams	185
Misura attacco filtri - in mm. Filter attachment size (mm.)	49
Colore dei numeri in piedi Color numbering values in feet	giallo yellow
