**Minolta AF Zoom 35-105mm 1:3.5 (22) - 4.5 Ø55mm**

In 1988, with the introduction of the new series of AF cameras "Dynax i" series, the lenses are aesthetically updated. As for the 35-105mm. In addition to the aesthetic update, we also find a new optical complex now recalculated in 12 lenses in 10 groups which makes the lens much more compact and lighter than the 1985 version. The lens body is covered, in the central part, by a rubber band with sparse inclined rifling (2nd type). The focus ring is smooth. On the left is the Minolta logo with the "rising sun"; on the right two lines show the indications: "AF" and "35-105". The distance scales, visible in the window, are both painted in white. Distances between 0,85m. and 1.2m are highlighted by a blue horizontal line that indicates the shooting range at close range. The collimation signal with the ring nut of the camera optics is made up of a red plastic hemisphere.
