

45mm. f.1:2 MD Rokkor

Production: 1978-1981

Serial Nr.1527409
Minolta Code: 0588-100

Inscription on the lens:
Minolta MD Rokkor 45mm 1:2 Lens Made in Japan Ø49

The 45mm version. f.1: 2 MD Rokkor is introduced to replace the 50mm. f.1: 2 as an economical, light and space-saving lens. Also in this perspective, the typical improvements of the MD Rokkor series have been introduced, but the anti-reflective treatments are single-layer. This economical finish is reminiscent of "Celtic" manufacturing. However, the 45/2 remains a valid lens in terms of optical performance.

The identification code of the 45mm lens, in orange color, is placed on the right side of the distance scales.

Like all the others in the MD series, this lens also has the MC coupling.
