

# 70-210mm. f.1:4 Minolta MD Zoom

Production: 1981-2005

Serial Nr.1141666  
Minolta Code: 2514-100

Inscription on the lens:  
**Minolta MD Zoom 70-210mm 1:4 Japan Ø55**

The 70-210mm.f.1: 4 Minolta MD Zoom can be considered the updated version of the 75-200 Minolta MD. This one-touch lens provides excellent performance, so much so that Leica has marketed it under the name of Leitz Vario-Elmar R 70-210 f.1: 4.

On the outside, in addition to the inscription on the front of the lens, you can see the introduction of all those typical improvements of the Minolta MD series: the numbering of the standing scale now painted in yellow-orange; the lock on the minimum diaphragm, with the signal painted in green, which is obtained by moving back a small cursor placed along the right side of the diaphragm ring. The last working diaphragm painted in green. The front lens cap has the new Minolta brand graphics with the rising sun in the "O". The identification of the objective is given by a single yellow-orange 70-210 inscription placed to the left of the distance scales.

Like all the others in the MD series, this lens also has the MC coupling.

Numero lenti Number of lenses	12
Gruppi Groups	9
Angolo di ripresa Field angle	34° - 12°
Distanza minima di ripresa Minimum focus distance	1,1 m. / 3,65 ft.
Accoppiamento diaframma Diaphragm coupling	automatico automatic
Gamma diaframmi Aperture range	4 - 32
Dimensioni - diametro x lunghezza in mm. Dimensions: diameter x length (mm.).	72 x 153
Peso - in grammi Weight - in grams	635
Misura attacco filtri - in mm. Filter attachment size (mm.)	55
