

# 75-200mm. f.1:4.5 MD Zoom Rokkor

Production: 1978-1981

Serial nr.2041170  
Minolta Code: 0637-100

Inscription on the lens:  
**Minolta MD Zoom Rokkor 75-200mm 1:4.5 Lens Made in Japan Ø55mm**

The 75-200mm. f. 4.5 MD Zoom Rokkor replaces the previous 80-200 f.4.5 which remained in the catalog for a short time. This zoom lens is one-touch type and has all the updated technical features of the MD Rokkor series. The excellent quality of this lens is demonstrated by the fact that Leica had its Leitz Vario-Elmar R 75-200mm built by Minolta. f.4.5

The Minolta 75-200mm. f. 4.5 MD Zoom Rokkor comes with a single ring for adjusting the focus and setting the desired focal length. The diaphragm is always constant even with the variation of the focal setting.

The identification code of the 75-200mm lens, in orange color, is placed on the right side of the distance scales.

Like all the others in the MD series, this lens also has the MC coupling.

Numero lenti Number of lenses	15
Gruppi Groups	13
Angolo di ripresa Field angle	32° - 12° 30'
Distanza minima di ripresa Minimum focus distance	1,2 m. / 4 ft.
