

ROLLEI LEATHER BAG for ROLLEIFLEX Cameras

Characteristics and functions

Rolleiflex branded leather case, with shoulder strap, designed for use with Rolleiflex SLR cameras with built-in light meter.

The bag can be divided into two parts: once the case is opened, the front / upper part can be separated from the lower part by acting on the metal frame located on the hinge at the base of the front section. On the left side of the bag there is a leather shell that protects the built-in exposure meter located on the left side of the camera.

The bag is complete with shoulder strap with case for the lens hood.

Acting on the special metal slats you can separate the shoulder strap from the bag.
