

11-18mm. f.1:4.5-5.6 Sony Alpha

Production: 2006 - >

Serial Nr.1808034

Inscription on the lens:
DT 4.5-5.6/11-18 Ø77

This lens is part of the first series of Sony Alpha lenses directly derived from Konica-Minolta AF lenses from which it differs in the rubberized finish of the two focus / focal setting rings and the inscriptions on the barrel. In the optical system there is a glass element with anomalous dispersion and three aspherical elements.

In the center are the indications "4.5-5.6 / 11-18" and on the right "Sony". The 11-18 is a super wide-angle zoom lens capable of covering a focal length corresponding to 16.5-27mm in the 35mm format.

Ideal for landscape shooting and indoor photography.

The collimation signal with the ring nut of the camera optics consists of a red plastic hemisphere.
